

APC System Integrators

- ✓ Sales of Electrical Goods
- ✓ Sales of Generator Spare parts
- ✓ Service of All LT/HT Panels
- ✓ Service of Generators
- ✓ AMC undertaking

Business Type:
SALES / SERVICE
AMC /SUPPLIER

About Us:

Introduction:

APC system integrators is established with the purpose of satisfying “Industrial” needs working with the group of technocrats who are well experienced in the same field, vision to provide high-quality of services that meets the expectation of our esteemed customers.

Our scope of supply involves wide range of LT & HT panels & its spares, Generator spares & field instruments at an effective price. We do take AMC/retrofitting/commissioning jobs as well as existing installed jobs at site.

Mission:

Our mission is to be the company that best understands and satisfying the power generation and other Industrial needs and delighting our customers by providing the best possible services, quality and values.

Vision:

Our vision is to build an organization which shall meet wide range of “Industrial” needs at outstanding quality and competitive price with customer satisfaction.

Strategy:

- Focus on quality & competitive price.
- Timelines commitment in project execution.
- Customer satisfaction.

Goals and Objectives:

- Continuous improvement in efficiency of our services and capturing a bigger market share.
- Expanding market to an international level and becoming a lead consultant for Electrical products and services.

Overview:

Here is overview which clarifies our scope of services:

- ❖ Supply of Generator Spares.
- ❖ Supply of Electrical Panel/Panel Spares.
- ❖ Supply of PLC and Spares.
- ❖ Supply of Busbars/Flexible, turbine field instruments, Field cables, Vibration Monitoring System etc.
- ❖ Installation/Erection/Commissioning of supplied goods.
- ❖ Retrofit servicing of LT and HT panels and Alternators.
- ❖ AMC undertaking of LT and HT panel.
- ❖ PLC and Automation Services.
- ❖ Supplying all kind of HT and LT Cables.

Spares & Service:

We offer a wide and useful range of spare parts that can be used by our clients to meet their diverse needs in the industry. Our range includes products like Control & relay panels switchgears, A,B& C class items, magnetic items etc. that are available in both customized as well as standard finishes and guarantees efficiency and durability. Our list of products includes all types of accessories for MCC/PCC/VFD/Inverter panels.

We supply all type of electrical control panel spares such as Control transformer, Current transformer, push button station,

Relay breaker, Instrument transformer, PLC, Aluminium and Copper Flexibles, and Busbars, terminal, Copper/aluminum lug, cable glands, contactors, epoxy resin bus bar supports insulators, wire wound resistance, and all other spares as per requirements by clients.

- ★ We regard Clients requirements and endeavor to keep up to their expectations.
- ★ We are diligent and work with a vision.
- ★ We maintain quality standards and business commitments.
- ★ We employ the tools of efficient process management.

List of Electrical Spares

- ACB/MCCB/MPCB/MCB
- Limit switches / LPBS
- Digital / Analogue Meters
- Synchroscope
- AVR module and its spares
- Load sharing modules
- Lightning Arrestors
- Surge Capacitors / NGR
- HT & LT Cables
- VMS Spares
- Current & potential transformers
- Aluminium & Copper Busbars
- Aluminium & Copper Flexibles
- Contactors
- Thermostat
- HRC Fuse
- Pressure Gauges
- Space Heaters
- Analog AVR spares
- Numerical Relay

List of Generator Spares

- Alternator Diodes
- RTD's
- Discharge Resistor
- ATDs
- Thermocouple
- Sliprings
- Carbon Brushes
- Rotating rectifiers

LOW VOLTAGE POWER & DISTRIBUTION PANELS

- ✓ Power Control Centre - PCC
- ✓ Power cum Motor Control Centre – PMCC
- ✓ DC Starter Panels
- ✓ Power Distribution Panels
- ✓ Motor Control Centre – Fixed and Drawout Type
- ✓ Distribution Panels – AC, DC and Lighting DBs Control
- ✓ AMF Panels
- ✓ Local Control Station (LCS) and Power Junction Boxes
- ✓ APFC panels

MEDIUM VOLTAGE PANELS

- Breaker Panels – Up to 33kV
- NGR/NGT Panels
- LAVT & LA Panels
- LASCPT Panels
- APFC panels – Medium Voltage

CONTROL, RELAY, PROTECTION & AUTOMATION PANELS

- Control, Relay and Metering Panels
- Generator and Turbine Control Panels
- Synchronizing and Load sharing Panels
- Control Desks and Control Consoles
- DG Synchronizing Panels
- PLC based Automation Panels
- PLC based TG, Governor Control, Metering and protection Panels
- Control and Instrumentation Panels
- SCADA System
- VFD Panels
